BETTER MEDICATION MANAGEMENT AT HOME

We are recommending all of our clients to sign up for the "Baxter rol" system that Botica di Servicio has to offer.

Say goodbye to preparing medications or getting pills mixed. With the "Baxter rol" system you don't have to worry about having to prepare your medications for a whole week. On each package you can see the following information:

- Your name
- The date that the medication needs to be taken
- The hour that the medication needs to be taken
- What medications are in the package
- The dosage of each medication in the package
- The description of the medication in the package

The "Baxter rol" will be delivered at your doorstep once you apply to make use of this system.

Trinity will help you fill in all the needed forms for you or your loved one to make use of this amazing service.

We are super happy for her and proud of her for all the hard work she has put in her revalidation process. And all of this in the comfort and convenience of her own accomodation! It has been proven that at home recovery process goes faster than when you are admitted in a hospital or a clinic!

We wish her all the best!!
